

The ACSI Student Assessment Program is now available for **Homeschool Families**

ACSI supports homeschoolers by providing access to standardized tests and a biblical literacy assessment.

Iowa Assessments: Online tests covering core subjects (math, reading, science, and social studies) with national norms. Homeschool families can choose their testing week

ACSI Bible Assessment (ABA): An online, stand-alone test measuring biblical literacy (knowledge, understanding, and application), providing mastery-based scores

Why Homeschool Parents Should Consider ACSI

Objective Growth Assessment: Get a clear picture of academic progress, identify strengths/weaknesses, and guide curriculum adjustments

Accountability & Reporting: Meet state requirements and validate educational choices with objective benchmarks

Future Preparedness: Equip students with experience for college or vocational programs requiring standardized test scores (e.g., ACT, SAT)

Test-Taking Skill Development: Help children build essential skills like following instructions and managing time
